

IWBF 2021

International Workshop on Biometrics and Forensics 2021

Rome, Italy, May 6-7, 2021

COMMITTEE

General Chair

Emanuele Maiorana,
Roma Tre University, Italy

Technical Program Chairs

Pedro Comesaña Alfaro
University of Vigo, Spain

Fabio Scotti
Università degli Studi di Milano, Italy

Publication Chair

Francesco Marra
University Federico II, Italy

Demo Chair

Juan Ramón Troncoso-Pastoriza
EPFL, Switzerland

Publicity Chairs

Christian Riess
FAU, Germany

Finance Chair

Maria De Marsico
Roma Tre University, Italy

Advisory Board

Sos Ağaian
College of Staten Island, CUNY, USA

Jinshang Tang
Michigan Tech. University, USA

Patrizio Campisi
Roma Tre University, Italy

David Zhang
Polytechnic University Kowloon, HK

Yong Xu
Harbin Institute of Technology, China

IMPORTANT DATES

Submissions: **February 21, 2021**
Decision Notification: **March 14, 2021**
Camera Ready: **April 2, 2021**

IWBF 2021

The **International Workshop on Biometrics and Forensics (IWBF)** is a forum devoted to facilitating synergies in research and development among the areas of multimedia forensics, forensic biometrics, and forensic science. State-of-the-art research in areas such as biometrics, forensic science, surveillance, and multimedia forensics will be presented.

The 9th edition of IWBF will be held in **Rome, Italy, on May 6-7, 2021**, offering a meeting place for those concerned with the use of advanced biometric technologies in forensic applications, attracting participants from industry, research, academia, and end-users.

Topics of interest include, but are not limited to:

- Biometrics
- Attacks to biometric recognition systems
- Multimodal biometrics
- Soft biometrics
- Mobile biometrics
- Biometric analysis of crime scenes
- Forensic Science
- Multimedia forensics
- Integrity verification
- Anonymization & Data Privacy
- Data de-identification
- Surveillance
- Ethical and societal implications
- Information Theoretic Security
- Adversarial Signal Processing
- Case studies on the aforementioned topics

Workshop proceedings will be published in the IEEE Xplore® digital library.

Paper Submission

Prospective authors are invited to submit original and unpublished work, in English, with **up to 6 pages** including results, figures and references. (overlength submissions will not be reviewed). Paper submissions will be reviewed by at least three members of the Technical Program Committee. This process will be blind, with the results of the review process to be posted on the CMT Website. Authors will also be notified of the review outcome by email.

Demo Proposal

The IWBF 2020 organisers invite academia, industry researchers and practitioners to showcase their work in biometrics and forensics through demonstrations. We are searching for interactive displays of innovative methods, systems and applications within the workshop's topics of interest.

Doctoral Consortium

The IWBF Doctoral Consortium aims to provide a platform for current and prospective Ph.D. students to present their ideas and ongoing research, meet other researchers, and obtain feedback from well-known advisers about possible directions for their future research. The doctoral consortium is a great opportunity for students to discuss the strengths/weaknesses of different research proposals, as well to show/present some preliminary results. Also, it should promote the brainstorming about exciting opportunities in the forensics/biometrics domains of knowledge.

For further details, please visit the IWBF 2021 website: <https://www.iwbf2021.com/>
